EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Cameron (Reg. No. 50,298), the undersigned, on September 25, 2007. The application has been amended as follows:

IN THE CLAIMS:

Claims of the invention have been amended as follows:

17. (Canceled)

18. (Currently Amended) A computer program product **having instructions embedded in a computer readable storage medium, when executed by one or more processors,** ~~comprising a computer~~ for authorizing a transaction in which transaction information is presented to a user at a first device being an Internet access device in a first information set in a first format suitable for presentation on the first device wherein said first information set is communicated over to said first device over a first communication network, the computer program **product** ~~further~~ comprising:

instructions for creating a second information set in a second format suitable for presentation at a second device being a mobile terminal, wherein the second information set is representative of the first information set;

instructions for linking the first information set and the second information set; instructions for sending the second information set to said second device over a second communications network being a public land mobile network (PLMN) which is separate from the first communication network;

instructions for receiving authentication information from the second device through the PLMN while the transaction is pending at the first device; and

instructions for providing said transaction to said user at said first device over said first communication network in response to said step of receiving said authentication information.

REASONS FOR ALLOWANCE

3. Claims 1-16 and 18-42 are allowable over the prior art of record.
4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks in the Amendments filed on 17 July 2007 and 02 March 2007 with respect to the amended claim limitations point out the reason claims are patentable over the prior art of record.

Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip B. Tran whose telephone number is (571) 272-3991. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
